Create either static or dynamic QR Codes.

Dynamic QR Codes: Use these for services and products. We can track the analytics for the dynamic QR codes. Codes can be modified anytime, even after printing. There is a limit of 50 dynamic QR codes per year. As of November 2022, we have used 26. (Expires March 2023)

Static QR codes: Create static QR codes for events. We cannot track the analytics for static QR codes. There is no limit to the number that can be created.

When uploading QR codes to Canva, make sure to label them accordingly. When done with a code, delete it from Canva.

To create a code: click on the blue Create button in the right hand corner:

The screenshot shows the BeaconStac dashboard with a sidebar on the left containing navigation options: Overview, QR codes, Analytics, Templates, Linkpages (marked BETA), Campaigns, Landing pages, and Forms. The main content area displays a greeting "Hi Reading Public, Here is your account overview" and a blue "+ Create" button. Below this are three summary cards: "QR codes" showing 355 scans and 24 dynamic codes; "Most popular" listing three items with scan counts of 125, 54, and 31; and "Least popular" listing three items with scan counts of 1, 1, and 1.

Category	Item	Scans
QR codes	Total Scans	355
	DYNAMIC CODES	24
Most popular	Apple APP_DOWNL...	125
	WEBSITE 6/16/2022	54
	WEBSITE 9/21/2022	31
Least popular	WEBSITE 5/9/2022	1
	WEBSITE 5/26/2022	1
	WEBSITE 5/27/2022	1

Choose QR Code. The default is for the dynamic code. Scroll to the bottom of the

page to create a static code. You can choose a variety of links to create:

[Home](#) / [QR codes](#) / Create QR code

Dynamic QR Code TRACKABLE

Modify content anytime, even after printing

Website

Link to an existing web URL on the web

Digital Business Card (vCard)

Create your digital business card (vCard) and share contact details

Linkpage ?

Create a mobile-friendly, link-in-bio page with multiple links

Restaurant Menu

Enable contactless menus

Form

Create a form and link to it

PDF

Link to PDF file(s)

Landing Page

Create a web page with content using our WYSIWYG editor

App Download

Link to your app on the Android & iOS app stores

Location

Point to any location on Google Maps

Coupon Code

Share a coupon code

Preview

Hover over a dynamic type to see preview.
